

Cobb County encourages you to become involved with the process of updating the Cobb County Pre-Disaster Mitigation Plan. You may be a concerned citizen of Cobb County, a government or non-profit agency, a college or university, a businesses or industry, or other organization. Regardless, we value your input and invite your participation in the plan's revision process! The county has created a survey to make the current plan easily accessible and your participation convenient for you. Please review the information presented here and contribute your ideas and recommendations for planning to make Cobb County safer from the effects disasters.
